Manuscript Number:	<b>Ms_JEMT_42152</b>
Title of the Manuscript:	<b>Macroeconomic Determinants of Stock Market Performance in Nigeria: An Econometric Approach</b>
New Title	<b>Effect of Macroeconomic Variables on Stock Market Performance in Nigeria</b>
Type of Article:	<b>Original Research Article</b>

**PART 2:**

<b>FINAL EVALUATOR'S comments on revised paper (if any)</b>	<b>Authors' response to final evaluator's comments</b>
<p>There is a need to a general proof-read of the manuscript, so many typographical errors has occurred. For instance, the use of "indebt analysis" in line 58 and many more. I also advised against the use of e.t.c (which should be replaced with "and so forth". The specific objectives should be merged with the paragraph before it. Line 76-78, should be merged with the preceding paragraph. The single line spacing should be used throughout the body of the work. I strongly advised against the presentation of data (Table 1 and 2) in the body of the study. In addition, it should not appear anywhere in the study. Tables 3, 4, 5, 6, 7, 8 and 9 should be presented properly in a constructed table and not a copied version of the results. In lines 512-518, there is a mix up in the report of findings (if the study found a negative relationship between effect of inflation on stock market performance, how does this negates the studies of Shrestha and Subedi (2014) and Jamaludin, Ismail and Manaf (2017)?. Also, of great important is the need conduct a thorough editorial work on the manuscript to ensure good presentation of the write-up in order to encourage readership.</p>	<p>Thank you very much for the comments. The necessary corrections have been effected. However, this study found a negative but not significant effect of inflation on stock market performance, whereas, the studies of Shrestha and Subedi (2014) and Jamaludin, Ismail and Manaf (2017) found a significant negative effect.</p>
