SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>TOPIC: The topic is too ambiguous and lengthy. Consider revising to read: The Impact of Land use and Land Cover on the Flood Plain of Bhagirathi River, Purba Bardhaman District, India.</p> <p>ABSTRACT: The abstract is too loose coupled with poor tenses, grammars, and lack of coherent etc. The entire abstract should be rewritten to capture the main idea, summary of method, major findings, and conclusion.</p> <p>Introduction and Literature Review: The introduction is fair but literature review required total modifications and careful correction. The used of highlight, symbols, title of the other researchers in the introduction is unscientific and unacceptable.</p> <p>Some works cited in the introduction and literature review sections are not referenced. This is a serious criminal offence (plagiarism). E.g. Thurnbury, Schummm, Snow etc..</p> <p>The Referencing format is not science domain standard compliance.</p> <p>The Method: The method is poorly presented. It is lack focused, and direction.</p> <p>The results are not adequately discussed and communicated</p> <p>There are too many flaws in this manuscript. The author(s) take their time to revised and rewrite this manuscript</p> <p>The referencing style is not standard compliances with the Vancouver which the Science Domain and Journal of Geography, Environment and Earth Science International</p> <p>http://sciencedomain.org/archives/27</p>	<p>I do the work as per your guidance, and also change the paper title in short.</p> <p>Also rewrite the abstract.</p> <p>In your journal there has no mention that the format of literature reviews. So that it is difficult to modification but I will try my best.</p> <p>Reference section also being modified as per the journal rules.</p>
Minor REVISION comments	It is difficult to differentiate this manuscript with a power point.	
Optional/General comments	The author(s) the information to give but they do not know how to communicate. Considering the numerous flaws, suggest that this manuscript be send to the author for thorough revision.	I will try to revised whole paper and corrected as per your guidance,thanks.
