| Journal Name: | Journal of Geography, Environment and Earth Science International |
| Manuscript Number: | Ms_JGEESI_49476 |
| Title of the Manuscript: | Land Size Class Categories Wise Change in Cropping Pattern in Malda District – A Block Level Analysis |
| Type of the Article | Original Research Article |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page/sdi-general-editorial-policy>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|--|
| <u>Compulsory</u> REVISION comments | This is a highly informative manuscript. A bit of reorganization, attention to grammar and logical flow (including proper placement of tables and maps) including clarity of rationale and objectives, will improve it substantially. | Thank you |
| <u>Minor</u> REVISION comments | Think again if you need so many tables as annexes to a scientific paper. Same with maps. Also think of a better spatial way of presenting what you want in a map instead of the charts which are barely legible. Otherwise, try to follow my suggestions in green highlights. | |
| <u>Optional/General</u> comments | It will make a good scientific paper if the above issues are attended to. | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|--|
| Are there ethical issues in this manuscript? | <u>(If yes, Kindly please write down the ethical issues here in details)</u> | |
