General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>The author(s) has wrote the article excellently. Here is my minor revision comment:</p> <ul style="list-style-type: none"> → It would be better if the author(s) can include the approaches he (they) used to verify the "nearly confirmed future" of the population trend projected. → The author(s) need to adjust alignment of the article as per sciencedomain international guideline. <p>With the exception of the above mentioned minor comments, the author (s) has used good English and appropriate methodologies to write the article.</p>	<p>The manuscript has been formatted as per the guidelines of the journal</p> <p>We have made the English correction of the articles</p>
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
