

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Scientific Research and Reports</a>
Manuscript Number:	Ms_JSRR_46025
Title of the Manuscript:	Physicochemical and Nutritive Properties of Palm Oil Extracted from Natural and Breeding Varieties of South East Côte d'Ivoire
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The manuscript is overall very well organized and written. However, it does require some attention to correct for deficiencies in grammar and use of the English language.	See revised manuscript for grammar and spelling errors in yellow font
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	This is an excellent manuscript that provides a very comprehensive analysis of the sources of palm oil from natural and breeding varieties. The analyses of all the different parameters are very comprehensive. The conclusions made by the authors are all justified. Once the minor revisions noted above are made, this manuscript should be considered suitable for publication. It will make an important contribution to the field.	Thanks for the comments and see revised manuscript for modifications in yellow font

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
