<p>About the abstract, please correct this: the first sentence in CONCLUSION, "Sequence analysis showed that all the strains were HAsV-5 indicating the strain prevalent in the study area." should be showed in the RESULTS part, since the gene type is even not mentioned in the results, how the conclusion comes out.</p>	<p>,("Sequence analysis showed that all the strains were HAsV-5 indicating the strain prevalent in the study area.").....Pls note that "sequence analysis" in this case MEANS phylogenetic tree interpretation. IT CANNOT BE SHOWED IN THE RESULT PART. Therefore the sentence is CORRECT!!!!!!</p>
