This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Buruli ulcer can be found in several areas of the world from Africa to Australia. Even in Europe might appear sporadically, and family practitioners are not really trained to recognize the disease. The appropriate diagnosis is established only after several attempts with conventional antibiotics and the suspicion is raised to some unusual infection, when the wound is slowly progressing, The treatment of advanced BU is difficult and long lasting. This manuscript is the detailed description of the isolates from different location of the country and calling the attention to the importance of the disease.	We agreed with the comments of the REVIEWER and we are so grateful for his interests about the Buruli case.
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	No there are any ethical issues in the manuscript. So we delete in the revised manuscript the "DECLARATION OF HELSINKY" but we safe all the authorisation about the National Ethical Comettee and the National Program against Buruli ulcer of Togo board authorisation like written below: The study was received approval from the Bioethics Committee for Health Research (CBRS) of Togo (N ° 21 / 2017 / CBRS of October 8, 2017) and the access to the data was authorized by the board of the National Program against Buruli Ulcer, Leprosis and Pian (Reference: 159/2015/MS/ DGS/ DSSP/ PNLUB-LP of November 20, 2015).
