

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_42778
Title of the Manuscript:	Behavioral Analysis of Daily Rainfall Pattern in Katsina
Type of the Article	Review Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>Behavioral Analysis of Daily Rainfall Pattern in Katsina is studied by the authors by taking into account recording period (1990-2015). I consider the manuscript has enough scientific merit to justify the publication. However, several points have to be addressed to improve the manuscript quality.</p> <ol style="list-style-type: none"> 1) The value of precipitation with a single decimal is enough precision detail (Table 2). 2) Improve the readability of the "y" axis labels in the figures. 3) Review the annual rainfall values indicated in Figures 2c and 3. 4) Review the following citation: Rosenstein et al., 1992 (line 214) ; In references: Rosenstein M, Collins J, De Luca C. A practical method for calculating largest Lyapunov exponents from small data sets. Physica D. 1993; 65: 117-134. 	<p>y axis labels have been improved Corrected</p> <p>Corrected</p>
Optional/General comments
