

EDITORIAL COMMENTS:

It still remains the final References NOT IN ALPHABETICAL ORDER OF THE AUTHORS' NAMES:A, B,C,.....

Also, there are situations when also a reference number noted, said... (62) noted for instance

The name of the author and into the brackets the reference number example Baron (62) said that.... of course the number is not correct, because it is with B and it is at the beginning of the References..

AUTHOR'S FEEDBACK:

We have tried to modify the paper as per the suggestions
