**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>1. The author should cross check the validity of some of the average values of Species-environment correlations (SEC) presented and that on the tables.</p> <p>2. I suggest that the p-values should be presented with the zero (0) before the decimal point. Example <math>p = 0.938</math> or <math>p &lt; 0.012</math></p>	
<b>Minor</b> REVISION comments	<p>1. I suggest that the Author may consider the replacement of the term "Intact Coastal Forest" with "Undisturbed Coastal Forest" in both the title and the body of the manuscript as the word "intact" in forestry is relative and associated with a lot of controversies.</p> <p>2. The use of the word "because" should be reduced in the manuscript</p>	
<b>Optional/General</b> comments
