Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>In materials and methods, 2.1 line 106: the details for conditioning of the sample to desired moisture content is not given. How much sample was taken? How long was it conditioned for? Hot samples were transferred to the probe directly...in this case why ambient conditions were not obtained before measurement? Will the results vary in such a case? These questions need to be answered in the text.</p> <p>In results, what is meant by long and short fruit? Long is how long and short is how short? Dimensions are missing!</p>	
Minor REVISION comments		
Optional/General comments	The study is pretty generic but may be published if revisions are incorporated
