PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>The authors corrected many errors in the text, but some errors remain. The references should exactly follow the Guidelines. E. g. instead of: "Adamade, C. A. and Jackson, B. A. (2014). Agricultural mechanization: a strategy for food sufficiency. <i>Journal of Agricultural Science</i> 4(3): 152-156." Right will be: Adamade CA, Jackson BA. Agricultural mechanization: a strategy for food sufficiency. <i>J Agric Sci.</i> 2014;4(3):152-156.</p> <p>This applies to all citations. The abbreviations of journal titles have to be used in References. As I wrote, for the same publication must be used the same number, e.g. citation "Feng et al. [14]" has 5 various number. But in all cases, this publication has to have number [14]. In the References, some publications must be renumbered. I had corrected many mistakes and these are highlighted in the text by green colour. What needs to be corrected is highlighted by grey. Lines 9, 106, 119, 165 – after comma, dot or colon has to be a free space. Lines 17, 21, 107. 111, 113, 237, 238, 239, 241, 308 – authors have to improve English. Figs. 5 and 6 are the same as in the first version of the manuscript, but the equation for $\tan\delta$ is corrected. The authors have to edit these figures.</p>
