**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	I could not write on the review form as it was read only version/ or else the word file version was not compatible with the one i have in my PC. So I have added my comments on the pdf file itself. I am attaching the same herewith. Regarding the decision, there are lot of grammatical mistakes. The author has not shown dependence of moisture on the variation in dielectric properties and merely relating the dielectric properties with frequency.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
