

SDI Review Form 1.6

Journal Name:	Asian Journal of Advances in Agricultural Research
Manuscript Number:	Ms_AJAAR_46706
Title of the Manuscript:	Effect of soil moisture, tillage speed, ballast weight and used implement on wheel slippage of the tractor: A review
Type of the Article	Review Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There are some contradictory statements in the article. For instance "When Arvidsson et al. [22] investigated the specific draught for different implements at different soil water contents they found that wheel slippage was generally higher for the chisel plow than for moldboard plow . They also found that the greater tillage depth was also associated with higher slippage. While the results from Mamkagh [21] showed that the tractor wheel slippage was highest for the moldboard plow and lowest for the chisel plow. " The travel reduction should be used instead of wheel slippage. A limited number of (26) literature has been used in the article.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
