

## SDI FINAL EVALUATION FORM 1.1

### PART 1:

Journal Name:	<a href="#">Asian Journal of Applied Chemistry Research</a>
Manuscript Number:	Ms_AJACR_46541
Title of the Manuscript:	Randomized trial on Quality assessment analysis of virgin coconut oil (Cocos nucifera L.) from wet and dry coconuts (unrefined grade); coconut oil by solvent extraction method (refined grade) produced from three survey regions of East Godavari district.
New title:	<b>“Determination of the Quality of Coconut Oils (unrefined grade) and (refined grade) produced from three survey regions of East Godavari district, India”</b>
Type of Article:	Original Research Article

### PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Some changes have been made. However, some criticisms were not taken into consideration and the reasoning was not mentioned.</p> <p><b>Key Words:</b> Keywords should be written in the same way. Some words are big written in some small</p> <p><b>Materials and methods</b> The characteristics of coconut in the Godavari region should be mentioned briefly. It should be said if there are differences compared to other places. In particular, the difference in the APCC region coconut should be demonstrated. FFA is not mentioned here. Iodine value is mentioned but not in the results section</p> <p><b>Results</b> For better interpretation 3 samples should be analyzed together 9 samples. No references are used here.</p> <p><b>Conclusions</b> This section should be rewritten. In particular, the AMP region should be highlighted in terms of trade. Working coconut oil quality, medical features are written here.</p> <p><b>REFERENCES.</b> Use APA referencing style. Italics all journal names. A total of 10 references were used, 6 of which were in the introduction and 4 of which were in the material method. This is not enough.</p>
