**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	My reflection concerns two points which can be explored : -The family labor is formed, if not, it can make the activity precarious. What criticism do you make of it. -You think that farmers will possess knowledge of mitigation and adaptive measures on climate change and other challenges which may arise in course of the business : Is that the fish farmers follow trainings to acquire their knowledge ? -Add a reflection, so the work will not only be descriptive, but the analytical sense of the author is needed to understand fish farmers' perception of climate change.	
<b><u>Minor</u></b> REVISION comments	Lines 72 to 74: Put the percentage in descending order	
<b><u>Optional/General</u></b> comments
