SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**Authors are suggested to revise manuscript as per following suggestions.** **Abstract** Line 8, Replace "metal" with "metals" and "brand" with "brands" Line 19, replace "cigarettes" with "cigarette" Line 20, replace "are" with "were" **Place and Duration** Mention about department/institute where samples were processed. **Methodology** Clearly mention the sample size. **Conclusion** Add few points about prevention and control measures. **Add few keywords after abstract part.** **Introduction** Introduction part is very brief, provide thorough literature review. Line 28, Add "are" between "metals.....found" Line 29-31, check it and revise. In introduction part, authors have discussed about Cadmium as most toxic, but not discussed about the metals estimated in the study. Explain in detail about all the metals (Cu, Pb, Zn) estimated in the study. Discuss about smoking status of study area. Discuss about previous reports of study area, if available. Line 52, Replace "toxic metals" with "heavy metals" **Materials and methods** Add few points about study area. Clearly mention about the sample size. Line 63, mentholated spirit or methylated spirit. Discuss in brief about the protocol followed for elemental analysis. Line 61-63, "The same.....mixture." check and revise. **Results and Discussion** Line 71, Correct as "RESULTS AND DISCUSSION" The result data are already presented in the table no.1 , so briefly discuss the data. Provide permissible limits of estimated metals in table no.1. Compare the data with relevant authorities' data. Fig. 1 is not cited in the text. Check the data of fig. 1 and discuss in brief. Line 74, replace "cigarettes" with "cigarette" Line 75, replace "are" with "were" Line 96, replace "cigarettes brand were" with "cigarette brands was" Line 107, replace "are" with "is" Line 110, replace "are" with "was" Compare the results with few more previous reports. Why have you selected this study? And what suggestions you want to give? Discuss in detail What prevention and control measures can be taken to minimize the toxic effects? Discuss in detail **References** Please go through the journal guidelines (http://www.journalajarr.com/index.php/AJARR/about/submissions#authorGuidelines) and revise all the references. Every reference referred in the text must also present in the reference list and vice versa (no. 21 reference is present in the reference list, but not cited	

	in the text). Provide DOI no. or PUBMED ID, if available.	
Minor REVISION comments		
Optional/General comments	-	

PART 2:

	Reviewer's comment	**Author's comment** ***(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)***
Are there ethical issues in this manuscript?	***(If yes, Kindly please write down the ethical issues here in details)***	

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
