General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> ● The last sentence of introduction part could be very confusing as what has been mentioned by the researcher is rather contradict with the conceptual framework proposed in this research. ● The objective of the study is weakly justified. ● Further explanation needed for each variable in theoretical foundation part, it seems like there are insufficient literature to support this research. ● Literature or previous studies are needed to support the dimensions used in this research for each variable. ● The readers tend to be misled or confused as the explanation of safety culture and safety climate are still vague and not clearly distinguished. ● Hypotheses development part is highly recommended to include in this research. 	
Minor REVISION comments	<ul style="list-style-type: none"> ● The researcher had mentioned about the number of accidents in introduction part, however the researcher did not mention the source of the information. 	
Optional/General comments	<ul style="list-style-type: none"> ● Kindly revise the text by checking the spelling, spacing etc. Editing and proofreading is highly recommended. 	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
