

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Asian Journal of Case Reports in Surgery
Manuscript Number:	Ms_AJCRS_46344
Title of the Manuscript:	Diffuse Peritonitis Associated Intra Abdominal Barium Leak:An Abdominal Emergency Catastrophe Case
New title of the Manuscript:	Diffuse Barium Associated Peritonitis as A Complication of Barium Enema Examination
Type of Article:	Case Study

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>1) As the authors state in the discussion, barium leakage was detected by a plain abdominal x-ray. I wonder why they do not provide this figure as Fig. 1 to evidence the barium-associated peritonitis.</p> <p>2) Remove "Indonesian" from the Abstract and Case Report to avoid identification of demographic or other patient specific information</p>
