General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Please omit reference in the abstract section. Some spell corrections are required. Please elaborate any abbreviation in the first instance of the text as ICD. Please use elaboration of abbreviation of the terminologies in the manuscript. Please avoid using bullets in the discussion while describing history. The description of signs/symptoms, diagnostic modalities & management plans are not part of the discussion. Justify the management done here with meta-analysing with some other case reporters in essential. Too many references are usually not needed in case reporting. Anyways, the case is interestin, managed definitely well. Please correct as per suggestions, for publication.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
