

SDI Review Form 1.6

Journal Name:	Asian Journal of Cardiology Research
Manuscript Number:	Ms_AJCR_43550
Title of the Manuscript:	Efficacy Of Heart Failure Reversal Therapy (HFRT) In Post-Menopausal Female Patients With Preserved Ejection Fraction (>40%).
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>First of all, I could not understand whether all patients had CHF or only 11 patients had CHF. Authors say that study group had CHF with preserved EF in materials and methods section. On the other hand, in results section, only 11 patients were suffering from CHF.</p> <p>Secondly, study does not have a control group to compare. I wonder whether this HFRT has advantageous effects in the case of CHF or has similar effects on all population.</p> <p>Thirdly I think that it should be better to analyse the relationship between improvement of VO2 max and weight loss. I mean that I wonder whether improvement of VO2 max depends on HFRT or weight loss due to low calorie diet.</p> <p>Additionally, authors should explain that the change of heart beat was seen in the first week, but there is no improvement in the subsequent periods.</p> <p>Finally, discussion is unsatisfactory. It should be augmented with many other references related with parameters, especially with VO2 max, CHF and heart rate.</p>	
Minor REVISION comments		
Optional/General comments
