SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Use the IPV abbreviation wherever in abstract Intimate partner violence in postpartum women can increase the risk of homicide and suicide. The study aimed to assess the prevalence, pattern and correlates of intimate partner violence among postpartum women attending postnatal and infant welfare clinics of LAUTECH Teaching Hospital, Osogbo. 2. Avoid to write place of Osogbo in key words 3. Avoid repetition of same reference number next to next and many areas its repeated For ex- An ecological framework devised by Heise describes factors on individual, family or relationship, community and societal levels.(14) Examples of factors on individual level include experiencing child abuse and witnessing marital violence while growing up.(14) Family or relationship level factors include alcohol consumption and family conflict inspired by male dominated control of wealth and decision-making while community level factors include poverty, unemployment, forced isolation of women from friends and family.(14) 4. The reference number 35 is missing in the citation 5. Explain about sampling technique used in this study? 6. Write about inclusion criteria of samples? 	
Minor REVISION comments	Carefully check the citation number in the whole study for repetition and follow author guidelines	
Optional/General comments	If possible, add recommendations for the future researchers
