**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link: (<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The work has been correctly done. The tables and the figures are good. The references are perfect. All the text must be re-written with the help of native English. I have begun to correct the text, but 1. I am not the adequate person, I am native French. 2. It is a long, very long work and I have only a few days for reviewing the paper. Every things must be corrected: the vocabulary, the grammar, the punctuation, the order of the words and of the sentences.....	
<b>Minor</b> REVISION comments	You must correct the writing imperatively.	
<b>Optional/General</b> comments	Ask to the copyeditor to better print the photos. They have been reduced, but not correctly reduced!! It is important.	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	

**Reviewer Details:**

Name:	Marie-Claire
Department, University & Country	University of Brussels, Belgium
