

**SDI Review Form 1.6**

Journal Name:	<a href="#">Asian Journal of Pregnancy and Childbirth</a>
Manuscript Number:	Ms_AJPCB_46292
Title of the Manuscript:	Fetal Origin of Adult Disease
Type of the Article	Review Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The article is very well done. However, it essentially takes into account the relationships between fetal growth and adult diseases.</p> <p>The review doesn't consider other possible interferences such as chemical pollution, intrauterine exposure to electromagnetic waves and only in the final chapter" controversies for FOAD hypotesis" it reports the possible role of epigenetics in the determinism of some epidemics of Western countries such as autism or obesity. For this reason I would suggest to change the title of the review</p> <p>(for example" intrauterine growth and adult diseases")</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
