General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>An outline of how participants gave consent to participate in the research was lacking. This is needed to further establish research ethics.</p> <p>The psychometric properties of some instruments (such as the PSQ) was not provided. Integrating these may provide readers with a better understanding about the reliability/validity of these instruments.</p> <p>Power analysis results outlining the adequate number of participants for statistically reliable results was not provided.</p> <p>Integrating a theoretical framework may better outline the contents and overall focus of the manuscript.</p>	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
