

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

Journal Name:	<a href="#">Asian Journal of Research in Agriculture and Forestry</a>
Manuscript Number:	Ms_AJRAF_46794
Title of the Manuscript:	Community Poultry Project for conserving the wildlife species in Magombera Forest, Tanzania
Type of Article:	Original Research Article

**PART 2:**

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>The manuscript has improved slightly from the previous version. However, there are still major issues that need to be rectified before this paper can be recommended for acceptance and publication. These multitude issues are indicated in the accompanied reviewed manuscript. The major issues pertain to the:</p> <p><b>General:</b> Grammar quality is still a problem</p> <p><b>Introduction:</b> Significant duplication and superfluous information is presented that do not relate to the core (limiting poaching) issue of this paper.</p> <p><b>Methodology:</b> Map needs rectifying. Significant duplication of information.</p> <p><b>Discussion:</b> Pertinent results are not discussed at all. For example: YOU STILL NEED TO DISCUSS RESULTS RELATED TO:                      (1) Support to conservation of the forest (as it has the same mean value as manure!)                      (2) Attitude towards biodiversity conservation in the Magombera Forest                      (3) Agreement level to the statement that challenges exist in poultry rearing                      (4) Diseases and parasites identified                      (5) Variation in attitude and responses on challenges facing poultry production</p> <p><b>Additional issues are indicated in the accompanied reviewed manuscript!</b></p>
