PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<ul style="list-style-type: none"> - Please to keep the same formulas in all the manuscript. - Please to adding the standards for all the analyzes carried out in this study as is the case for the acid index. - Please to developing more the paragraph of the CPG analysis with references. - Please to keep the same style for references in the manuscript as well as in the list of references. - I ask is what the author can add the GC chromatogram?? - In comparing the composition of the oil with other works it is better to work with tabels for when can easily notice the points of difference. - The same for the studies and references used, it's better to work with recent references 	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
