General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>Good work but several parts are needed to improve :</p> <ol style="list-style-type: none"> 1- Check the format and font face of the journal all over the manuscript. 2- The introduction is weak and not covered all parts of the manuscript. 3- Pleas check the grammar all over the manuscript . 4- The part of animal material and its characterization was not clear such as the old of the animal in this experiment and the model as well , what is model in this experiment ??? 5- Where is the ethical approval of this study? 6- What do you mean by animal material??? you can write animal (and that is enough) 	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
