**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</b>
<b>Compulsory</b> REVISION comments	<p><b>Topic:</b> The topic is good but the GIS tool was not adequately applied. Consequently, the author(s) may change the topic to read: The Statistical Based Approach To Vulnerability And Adaptation Strategies By Rural Farmers To The Impact Of Flooding In Rivers State, Nigeria.(see methodology) OR go ahead to implement the GIS tool in the analyses..</p> <p><b>ABSTRACT:</b> There are many grammatical errors/phrases that have been identified and need to be corrected (see the main work).</p> <p><b>Materials and Methods:</b> The research method is elaborately discussed with the exception of the GIS application/tool.</p> <p><b>Results:</b> The maps presented as Figures 1 – 6 are the same. The titles are poorly structured. Each need to depict clearly the attribute of poverty areas; housing; alternative livelihood; town planning; housing density/market. The font size use in the map legend need should be increase. = Efficient management of flooding have been used in some part of the work (see page 14) as against the adaptation strategies envisage in the Topic. This must be corrected because management goes beyond adaptation.</p> <p><b>References:</b> The main reference section is not in compliance of science domain standard. Do restructure them.</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	The article is good but GIS application is rather eclipsed. The author(s) may change the topic to read: The Statistical Based Approach To Vulnerability And Adaptation Strategies By Rural Farmers To The Impact Of Flooding In Rivers State, Nigeria.
