**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The abstract is not clearly organised in accordance with the global best practice of abstract writing. It should specify in an unambiguous term the background, objectives, problems, methodology, findings and recommendations succinctly. Thus, it should be revisited accordingly.  I have a serious concern on grammatical settings and structure of the entire work. It seems there are lots of grammatical errors in the whole work and it must be seriously looked into. There is a mixed up in the in-text citation and the final references. Some of the references are looking APA while others Harvard. They should be harmonized and synthesised according to the template of the journal.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

**PART 2:**
