PART 1: Review Comments

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	1. **Conclusion** section is too meagre**.** 2. Fig. 2 needs not be under the Conclusion section**.** 3. Discuss results obtained in Fig.1 and Fig. 2	
Minor REVISION comments	1. It is not a good still to repeat the equation with initial conditions in the Abstract, in the Introduction section. Get rid of one and leave the other. 2. Use Fig. 1(a) and Fig. 1(b) instead of 'Left' and 'Right.' Do same with Fig. 2	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
