Optional/General comments	<p>Firstly,I admire for this study. I read it very jolly. It is valuable ,apprehensible,fluent and well designed.Proof of theaorems are looking and interesting.In this paper, Authors derived integral inequalities of Hermite-Hadamard type in the setting of multiplicative calculus for multiplicatively convex functions. They also procured integral inequalities of Hermite-Hadamard type for product and quotient of multiplicatively convex functions in multiplicative calculus.</p> <p>I accept this study for possible publication.</p>
