| Title of the Manuscript: | REPRODUCTIVE TOXICITY & BIOMARKER RESPONSE TO A DAILY DOSE OF MAGGI CUBES IN MALE ALBINO RATS (<i>Rattus norvegicus</i>) |
| Type of the Article | Original Research Article |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | The manuscript needs to undergo language editing before publication. Otherwise, there are no major problems | |
| Minor REVISION comments | Line 178: you need to discuss the results for 14 days as an outlier of your data and provide potential explanations. Line 196: change 'The significant increase' to 'The significant decrease' | |
| Optional/General comments | This is a straightforward manuscript. | |
