

SDI Review Form 1.6

Journal Name:	Cardiology and Angiology: An International Journal
Manuscript Number:	Ms_CA_46914
Title of the Manuscript:	Congenital heart disease in patients with Down Syndrome and its association with maternal age.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The English in the paper should be revised (grammar mistakes)</p> <p>The title should be shorter and should represent that this is a single centre study if it is</p> <p>The introduction and the objectives in the abstract are a repetition e.g the objective should be more clear ; we aimed to analyse the incidence of CHD in down syndrome and the effect of maternal age on this incidence and the type of CHD that could occur in the fetus</p> <p>I believe that secundum ASD was the most common because it's commonly detected in the first 2 years of life anyways (unrelated to the maternal age) and further analysis of the size and hemodynamic significance of these lesions is important</p> <p>How many of these patients ended up requiring treatment, percutaneous closure or surgery?</p> <p>The state of the siblings and the number of offspring each mother had is important to be noted as well</p> <p>Discussion is well written</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

SDI Review Form 1.6

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
