

**SDI Review Form 1.6**

Journal Name:	<a href="#">Cardiology and Angiology: An International Journal</a>
Manuscript Number:	Ms_CA_48908
Title of the Manuscript:	Probable controversy of cardiac resynchronization therapy in Democratic Republic of Congo on the adaptive energy metabolism of hypertrophied and insufficient heart.
Type of the Article	

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The manuscript describes very important issue. The current problem with heart failure is huge. A proper device solution besides medical and surgical management is pivotal. The authors appeal a signal for the manufacturers to be aware of the magnetic forces which may deteriorate the remaining cardiac function.	
<b>Minor</b> REVISION comments	The abstract section should be restructured and rewritten to give more clarity to this important subject. Some questions are raised: How strong is the magnetic field produced by CRT device to cause disruption of the cardiac function? How to manage this magnetic activity? Please consider mentioning abbreviation full out when cited for the first time.	
<b>Optional/General</b> comments
