(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1. Abstract: Must be presented in a single paragraph, state the current problem that you want to solve, 'explore' word suggested to change to 'evaluate@investigate@analyse' because 'association' is something that you need to measure</p> <p>2. Suggested to present your methodology in the flowchart to give more understanding and clear figure to the reader</p> <p>3. Fig 1 is the annual rainfall amount (mm). Why some of the annual rainfall was in the negative value?</p> <p>4. Based on your figures. You have many output however less discussion in the text.</p>	
Minor REVISION comments	None	
Optional/General comments	Good research	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
