PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	1. The manuscript has a classic description of adsorption models and the preparation of activated carbon from natural materials; 2. There are, however, many acronyms, some without explanation, and repeated adsorption of methylene rather than methylene blue on CPH. 3. All this has to be corrected.	
Optional/General comments
