Manuscript Number:	Ms_IBRR_49655
Title of the Manuscript:	Changes in Plasma Haemoglobin Concentration in Citrate Phosphate Dextrose Adenine-1(CPDA-1) Stored Blood
Type of the Article	

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Human subject study review board (or Ethical committee) is an institutional body comprising of members from various medical backgrounds and also includes a Lawyer, a layman and a Clergyman. Such a committee cannot be constituted by a Medical laboratory department as you stated here. BMSH should have such a standing committee. Review by an ethical committee is paramount for any human subject study. If you do not have one at BMSH, the University of Port Harcourt Teaching Hospital (UPTH) has such a committee. You could obtain an approval from there to carry out a study on human subjects in Port Harcourt or surrounding environment.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	

**Reviewer Details:**
