

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

Journal Name:	<a href="#">International Journal of Biochemistry Research &amp; Review</a>
Manuscript Number:	Ms_IJBCRR_34901
Title of the Manuscript:	Proximate and phytochemical profile of Melanthera biflora
Type of Article:	Original Research Article

**PART 2:**

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<b>NO REVISION HAS BEEN DONE; only one sentence has been added in the introduction. NO compulsory changes suggested previously have been introduced. The authors sent the same paper with the same deficiencies indicated in the first revision. It's a totally lack of responsibility from the authors to avoid all the comments and a lack of time for me to revise again the paper. It's intolerable what the authors have done. They should be penalized by prohibiting them to publish in the journal again.</b>
