

SDI Review Form 1.6

Journal Name:	International Journal of Medical and Pharmaceutical Case Reports
Manuscript Number:	Ms_IJMPCR_49440
Title of the Manuscript:	Uncertainty of Treatment of Serratia Marcescens Endocarditis
Type of the Article	Case study

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There are many studies on the treatment of patients with serratia marcescens endocarditis. However, reported case reports are always valuable in terms of treatment success, since S. marcescens is an intrinsically resistant bacterium which can potentially produce AmpC beta-lactamase and extended-spectrum beta-lactamase leading to a lack of potential treatment options.	
Minor REVISION comments	Grammatical errors should be corrected. No revision is required.	
Optional/General comments	I agree with the author about, which more studies and case reports are needed to better elaborate the optimal drug therapy and dosage. This case report will contribute to the literature.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
