**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	The work presented here is important and well executed as very well as well presented. The topic is worth investigating. There are two important revisions that should be made, are as follows, <b>1.</b> Please check the format of references 7,8,10,20 and 21. There are corrections which I have indicated, please go through that and make sure there are no mistakes in references. <b>2.</b> The gel picture of PCR, when we zoom it, we can clearly see that there are two pictures one above other. Please insert original single pic. There is no need to give background picture for black effect. Keep the main pic where bands can be seen clearly.	
<b><u>Minor</u></b> REVISION comments	There are some minor corrections which I have indicated in the manuscript attached.	
<b><u>Optional/General</u></b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
