PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>There are many grammar and sentence structure mistakes. Structure must be draw using chem. draw. There is no NMR SPECTRA, Mass or IR chacterization. How the author has isolated the compounds? Only cited one reference doesn't mean he had performed. There must be characterization data which is not available. How the author had validated this activity? Too preliminary results which is not acceptable according to international guidelines. Discussion is incomplete and without explanation with previous report.</p>	
Minor REVISION comments		
Optional/General comments
