General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>Line 27 and 28 (Keywords) – it should come after the conclusion of the abstract</p> <p>Line 43 – remove the second word “are”. The statement should start like this – globally attributed</p> <p>Line 61 – anticonculsant should be changed to anticonvulsant</p> <p>Line 169 – please separate the description of the table from the next paragraph. It seems it is joined.</p>	
Optional/General comments	<p>Excellent write-up. The author's methodology and compliance to the ARRIVE guidelines is pristine.</p> <p>The author is advised to use hyphens with words starting with “anti”. For example, anti-convulsant will be preferable to anticonvulsant.</p>
