

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_46302
Title of the Manuscript:	Detection of the Electrical Conductivity and Acidity for Some Types of Honey
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>This paper deals with the conductivity measurement for different kind honeies, conductivity is an important index for honey quantity, and important for human health, so I support it to be published after minor revision.</p> <p>1, all equations must be edited with equation editors and with order number of the equation in the text.</p> <p>2,the numbers of valig figures have some problems, for example: 10.92833±2.577608, the basic data is 20g of honey, only two number, so the report number may be 10.9±2.6.</p> <p>3, the first and second derivatives may be in combined figures not separate figures, and what kind of information do your have from the derivatives? Please describe them.</p>	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
