

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

Journal Name:	<a href="#">International Research Journal of Pure and Applied Chemistry</a>
Manuscript Number:	Ms_IRJPAC_46543
Title of the Manuscript:	THEORETICAL BIO-SIGNIFICANCE EVALUATION OF QUINAZOLINE ANALOGUES
Type of Article:	Original Research Article

**PART 2:**

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Authors did not provide point-to-point response to my concerns raised and hence it is not possible checking each and every point in the revised manuscript. Apparently, it seems authors have made a partial revision rather than a complete one. For example I do not see any changes made in Fig 5. Nevertheless, overall, to me this is satisfactory and hence in my opinion the manuscript in its current form can be published.
