PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article suggests that the use of garlic has a synergistic effect with antibiotics against ESBL producing <i>E. coli</i> The method followed for detection of ESBL production is in accordance with the current guidelines of CLSI. The whole procedure is correct and can easily be reproduced by a routine laboratory to confirm the procedure. References are correct. I think this paper is a great work.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
