PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	- More information in the **introduction section** can report weather conditions in that place if there are differences throughout the year. What are the temperature conditions that these microorganisms develop? - **Discussion -** I believe that it can improve the discussion, also showing the statistical analysis that is written in the **material and methods.** - Improve some paragraphs in the text (English); - The **conclusion** does not show any solution or possibility to resolve this problem. It only shows the need to control colonization and proliferation. I think you could write the conclusion better.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
