

SDI Review Form 1.6

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	Ms_JAMCS_47316
Title of the Manuscript:	On existence of blow up solution to nonlinear Schrodinger equations with derivative
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. The author did not give any information about the domain of Eq (1.1) 2. The introduction part has nothing to do with the blow-up behaviour of the Schrodinger equation. 3. The calculations in Section 2 are not the condition for blow-up of (1.1) 4. We do not even know what the authors want to do in Section 2. We cannot conclude the domain of integration for each integration appeared in this section. 5. In the Last section, we also cannot follow why he can conclude such conditions And we also do not know what is H^1 appeared in that section. 	
Minor REVISION comments	There are no minor. Only major revision that need to be done.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
