PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The author neglected discussing the drawbacks of testicular biopsy such as prolonged anaesthesia, haemorrhage and effect on other testis due to harassment of blood testis barrier.</p> <p>In page 6 line 14 the author stated that the age of orchiopexy has changed to 6 months as stated earlier although what was states earlier was that the age changed to 4 months</p>	
Minor REVISION comments	<p>I generally disagree with using questions either in the manuscript titles or within the manuscript. I opt for informative sentences in academic writing.</p> <p>What about incidence of fertility and need for biopsy in ectopic testis and retractile testes especially prolonged ones.</p>	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
