**SDI Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The data presented in the Tables should be interpreted under each Table clearly, to help the reader grasp the significant findings. Table 1 needs revision, the section on 'Production Systems and Marketing' should be in another Table –'Production Systems & Marketing of Quail Eggs' Likert Scale is mentioned under Table 2- 'Constraints of quail egg production' and presented, but nothing about Likert Scale is mentioned in the Methodology. Description of the Likert Scale used is necessary.	
<b>Minor</b> REVISION comments	Abstract needs some English correction. There should be at least five Key Words in the Abstract and kept simple and short. Table on 'Constraints' should be renamed as 'Results of Likert Scale analysis- Constraints in Quail Egg Production'.	
<b>Optional/General</b> comments	Literature Review has been done very well by the Author. Objectives of the study well defined in the Introduction section. The 4 <sup>th</sup> major constraint identified was the lack of funds among the respondents, but in the 'Convulsions' part nothing is mentioned and no suggestions to rectify it. The Author should provide these in the text.
